COVID Return to Work Solutions for the Entertainment Industry
Saniset was formed by a collective of P.G.A. Producers and IATSE Production Coordinators as an effort to ensure all productions return to work safely.

Often our industry’s work is done in temporary spaces, remote locations, and confined studio spaces. We understand how important the safety of your cast and crew is to your project and the subsequent work environments.

We have sourced the best-suited products and advisors to mitigate risk, both in the office and within these working environments.
Our board and panel of Covid trained safety consultants and logistical producers have experience across the globe with proposed Union Standards and Studio Guidelines.

**CONSULTING SERVICES**

- Pre-Project Analysis
- Budget suggested PPE line item, based on Crew Size and Shoot Days
- Prepare Studio/State/Unions Production Plans
- Advise on Production Workflow & Best Practices
- Coordinate the Health and Safety Department, Project Specific

# Spray Hand Sanitizers

## Natural Spray Sanitizer (3.4 oz)
- Infused with a specially formulated Immunity Blend of essential oils that includes Clove, Lemon, Cinnamon, Eucalyptus, and Rosemary to protect against bacteria, viruses, and pathogens. These natural oils are high in antioxidants, provide enhanced immunity, and contain antimicrobial properties. We also mix in Aloe, which will soothe and moisten your just-cleansed skin.

- Our immunity blend was inspired by the legendary “thieves’ oil.” As the story goes, 15th century thieves would wear this special concoction to protect themselves from the plague. The infused oils offer a rich, natural aroma and long-lasting protection.

- 70% Plant-Based Ethyl Alcohol. MADE IN THE USA

## BPI Hand Sanitizer Spray (6 oz)
BPI Hand Sanitizer Spray is designed to eradicate germs on the skin, clothing, furniture, and many other items. The spray has a 75% ethyl alcohol content. It is stored in an aluminum can with a twist cap. The can prevents damages from squeezing or dropping. The can is available in 4 oz and 6 oz options. BPI Hand Sanitizer Spray can be dispensed as a continuous spray to immediately kill germs on the skin and objects.

FACE MASKS

**GOOGLE FACE SHIELD**
- Wrap-around design provides over-the-top, side and front face, eyes and nose protection. Face shield visor can be easily cleaned with water or disinfectant.
- Made of transparent recyclable and waterproof pet (Polyethylene Terephthalate) which effectively isolate saliva and protect your whole face from spray, splatter, droplet, dust, oil and smoke and so on.
- Glasses made of durable Acrylic and PET materials. Comes with comfort fit acrylic glasses that can fit over most eyeglasses, anti-fog and anti-static coating treatment, clear face shields and double-sided anti-fog effect.
- Extremely lightweight and can be used in various situations, such as laboratory work, woodworking, mowing, gardening, drilling, sanding, welding, outdoor sports, etc.
- Ideal for long time wearing. Offers 180 degree protection from any unwanted droplets.

**3 PLY MASK (50 PACK)**
- Designed with a middle melt-blown layer that is critical as a filter to contain droplets by electrostatically absorbing them on the surface hence it cannot infiltrate the mask; while the inner layer is intended to absorb water, sweat and spit.

**KN95 MASK (INDIVIDUALLY WRAPPED)**
- Filtration Efficiency of 0.3 Particles greater than or equal to 95%
- Virus, Bacteria, and Dust
- Professional Protection
- Individually Wrapped

</table>

- TB-Cide Quat is a quaternary based, ready-to-use cleaner/deodorizer/disinfec tant.
- An intermediate level disinfectant, TB-Cide Quat kills Mycobacterium tuberculosis (BCG).
- TB-Cide Quat is designed specifically as a general non-acid cleaner and disinfec tant for use in hospitals, nursing homes, schools, transportation terminals, office buildings, manufacturing facilities, lodging establishments, retail businesses and athletic/recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination.
- Formulated to disinfect hard, non-porous, inanimate environmental surfaces such as floors, walls, metal surfaces, stainless steel surfaces, porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs and cabinets. For plastic and painted surfaces, spot test on an inconspicuous area before use. A rinse with potable water is required for surfaces in direct contact with food. In addition, TB-Cide Quat deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms.
- Kills CV19 in 10 minute contact time.
