Pyrotechnics/Fireworks

The use and sale of pyrotechnics/fireworks in the State of Georgia is governed by Chapter 120-3-22 Manufacturing, Storage, Sales, Exhibitions and Displays of Fireworks and Pyrotechnics. These Rules and Regulations for Fireworks and Pyrotechnics are promulgated by the Georgia Safety Fire Commissioner pursuant to O.C.G.A. Sections 25-2-4 and 25-10-5

Definitions per NFPA and amended by Georgia Rules and Regulations of the Fire Safety Commissioner 120-3-22:

Fireworks: *Any combustible or explosive composition or any substance or combination of substances or articles prepared for the purpose of providing a visible or audible effect by combustion, explosion, deflagration, or detonation including blank cartridges, firecrackers, torpedoes, skyrockets, bombs, sparklers, and other combustible and explosives of like construction, as well as articles containing any explosive or flammable compound and tablets and other devices containing an explosive substance.*

This includes all Consumer and Display Fireworks

Pyrotechnics: *Any controlled exothermic chemical reaction that is timed to create the effects of heat, gas, sound, dispersion of aerosols, emission of visible electromagnetic radiation, or a combination of these effects to provide the maximum effect from the least volume.*

This includes all cold spark pyrotechnics such as Sparklers

IMPORTANT NOTE: All fireworks must be submitted to the Savannah Fire Marshal's Office and the Chatham County Probate Court at least 30 business days prior to use.

Tents:

2018 International Fire Code; 3103.2 Approval required. Tents and membrane structures having an area in excess of 400 square feet (37m²) shall not be erected, operated or maintained for any purpose without first obtaining a permit and approval from the *fire code official*.

Exceptions:

1. Tents used exclusively for recreational camping purposes.
2. Tents open on all sides which comply with all of the following:
 - 2.1 Individual tents having a maximum size of 700 square feet (65 m²)
 - 2.2 The aggregate area of multiple tents placed side by side without a fire break clearance of 12 feet (3658 mm), not exceeding 700 square feet (65m²) total.
 - 2.3 A minimum clearance of 121 feet (3658 mm) to all structures and other tents.
